## **Notice of Stock Dispersal**

### **One of Australia's Oldest Dorper Studs**

The breeding stock from our stud is available for purchase since we are in process of retiring.

We will sell all the ewes and the best of the rams to a successful tender bid.

Interested parties are invited to contact us in order to arrange for inspection of the stock.

It is estimated that we will offer approximately 200 ewes and 5 rams.

Bridgetown Dorper Stud was established in 1997; one of the original founding members of the Dorper Sheep Society of Australia Inc.

The stock on offer reflects the efforts made over a 20 year period to develop a flock of quality Dorper Sheep, the emphasis on conformation and hardiness coupled with fertility.
